**Please do not wear any scents or fragrances to the office to keep it accessible for all. Thank you!**

**Driving directions:**

**Heading North on Mendocino**—pass the Bicentennial light (Kaiser on NW corner). Continue north. The first building is a radio station. The next complex is it—the Fountain Grove Office Park. Take the second driveway up a short hill to the back of the complex. Take the first left to Building E (which is actually three detached buildings). Our building is the back one, upstairs on the south end—Suite A.

**Heading South on Mendocino**—pass the Fountain Grove light. Stay in the left lane. Look for the bus stop/mail box on the side of Kaiser. Kaiser will be on the right side of the street. When you see the bus stop coming up, pull into the center turning lane. Turn into the first driveway for the Fountain Grove Office Park. If you miss it, you can take the second driveway even though it has exit arrows. Drive up the short hill to the back of the complex. Take the first left to Building E (which is actually three detached buildings). Our building is the back one, upstairs on the south end—Suite A.

Fountain Grove Office Park entrance as seen heading south on Mendocino. This is the north entrance driveway.

It is directly across the street from the side of Kaiser and the bus stop/mail box.

**Trauma and disabilities are my specialties.  
I ask that you please not wear scents or  
fragrances to the office as many people  
who come have environmental illnesses or  
allergies.**

**Thank you for your understanding!**

Building E, up the short hill, first left in the back of the complex.

---

Building E is actually three detached buildings. 3442 is the back building. Suite A is upstairs approximately where the arrow is pointing. There are 10 stairs to the front door.

Lots of free parking around the building.
